

Front Bumper with Light For Can-Am Ryker

ZP-YJ-030606-006

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

IMPORTANT

This FRONT BUMPER WITH LIGHT KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Products and accessories.

3. Fix the frame of the front bumper and the chassis with screws, and then install the front bumper and the lower protector on the frame.

6. Connect the extension line with the harness of the accent light, install the front bumper on the fairing, and then fix it with the original screws of the vehicle.

(NOTE: After the wiring harness is connected, wrap the interface of the red wire with insulating glue to prevent short circuit from subsequent wire contact)

7. Clamp the steel clips in the accessory package on the two brackets shown in the figure, install the brackets on the bottom chassis of the front bar frame (one on each side), fix them with screws, and finally reinstall the engine cover and side trim panel.

8. Installation complete.

NOTE: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.
