

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This SIDE MIRRORS KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

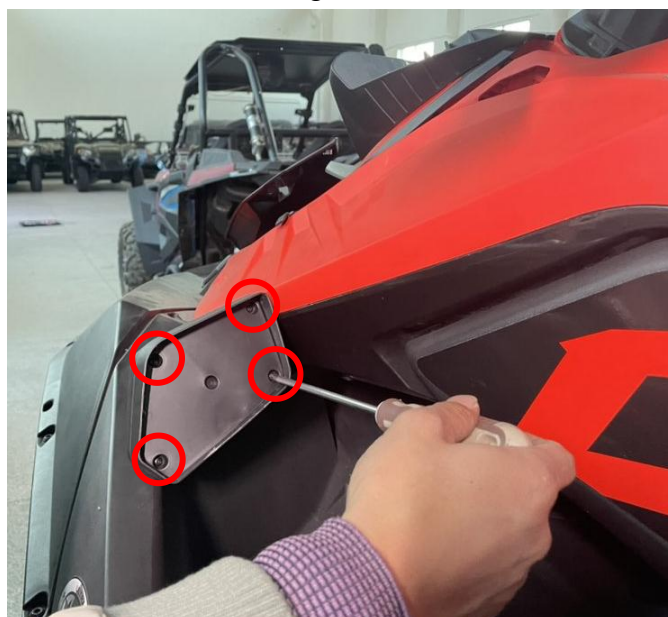

INSTALLATION INSTRUCTIONS

1. According to the screw hole position on the mirror back shell, use a pistol drill to drill three screw holes at the installation position of the motorboat (3mm drill is recommended).

2. Fix the rear housing of the mirror with the screws in the accessories bag (the screws need to be padded).

3. Fix the lens bottom bracket on the rear shell with 4 screws, and then wipe the surface of the lens bracket with the Adhesion promoter wipes in the accessories bag.

4. After the adhesive aid on the surface of the mirror holder is dry, remove the protective film on the back of the lens, paste the lens and press it hard.

5. After installing the lens, tear off the protective film on the surface of the mirror and the installation of the mirror is completed (the mirror on the other side is completed according to the same steps).
