

Rear Rack Mounting For POLARIS Sportsman 500

ZP-YJ-030503-120

BEFORE YOU BEGIN

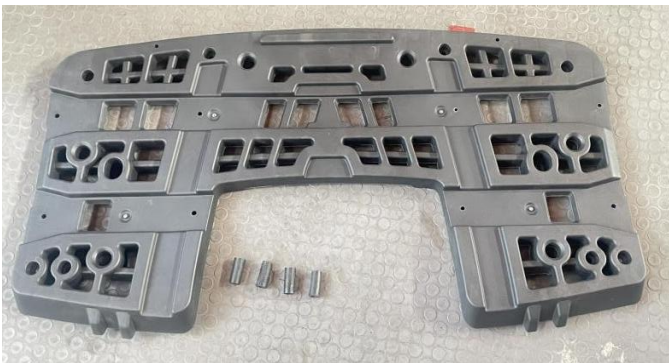

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

IMPORTANT

This Rear Rack Mounting is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Products and accessories:

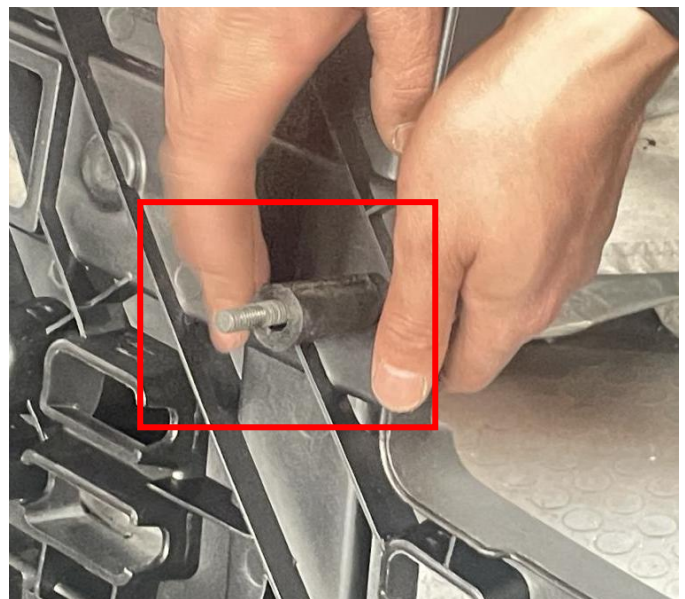

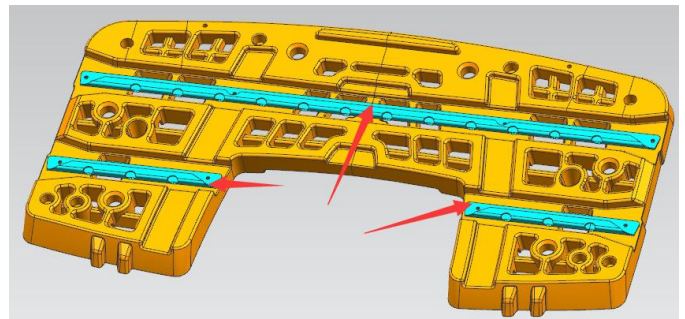

3. Remove the rear rack of the vehicle, and keep the original mounting screws, nuts and iron brackets. As shown below:

4. Fix the iron bracket (1 long and 2 short) of the original car on the rear rack, and then use the longest original screw to pass through the rear rack, put on the supporting liner, and then install the rack on the car (screws need to be stuck into the original fixing hole on the car),

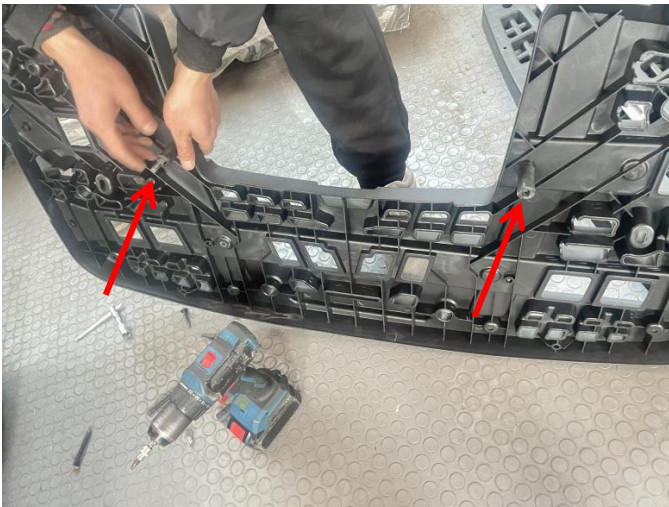

and screw the nut on the bottom. As shown below:
