

# Center Rear View Mirror and Side Mirrors Combo for Yamaha Viking

ZP-YJ-031105-004

SAUTVS®

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

## IMPORTANT

The Center Rear View Mirror and Side Mirrors Combo is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

## INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

### 1. Product picture

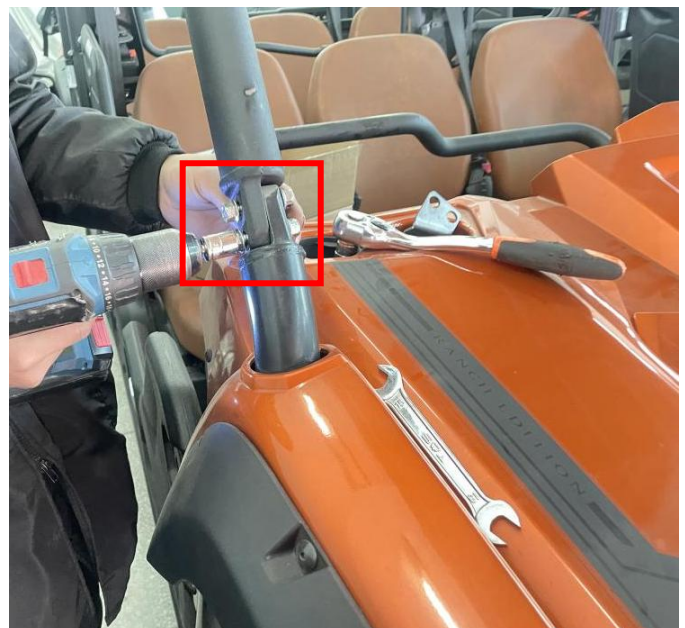

The installation steps of the side mirrors are as follows:

2. First unscrew the screws at the A-pillar of the original vehicle, and then use the screws provided with the product to fix the reversing mirror mounting bracket to the A-pillar. As shown below:

2.1 The bracket is divided into left and right parts, which should be noted during installation.

2.2 The original vehicle screws need to be replaced one by one. Do not unscrew them all at once.

The installation steps for the center rear view mirror are as follows:

4. Clip the matching mounting bracket of the interior mirror onto the front bar of the original vehicle roof, then pass the fixing screw on the back of the interior mirror through the fixing hole on the mounting bracket, and finally fix it with a nut. As shown below:

3. Assemble the corresponding side mirror on the mounting bracket and fix it with matching screws. (The side mirror on the other side can be installed according to the same steps above) As shown below:
