

LED Spot Light for Polaris RZR XP 1000

ZP-YJ-030502-034

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

The LED Spot Light is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

1. Product picture

2. Remove the cover and mesh grill of the original vehicle, remove the decorative mesh on the cover, install the spot light on the cover, and fix it with self-tapping screws. As shown in picture:

3. Install the cover of the spotlight back to the original vehicle. When installing the spotlight, firstly, thread the spotlight harness through the gap beside the kettle to the front center net, connect it with the broken skin of the wire harness of the mesh grill light, and do insulation protection. Finally, start the vehicle to check whether the spotlight is turned on normally. After checking, install back the mesh grill of original vehicle and fix the cover. As shown below:

Note: Black is connected to black and red is connected to red when connecting the wiring harness of mesh grill light.
