

Tail Lights for Yamaha Wolverine X4

ZP-YJ-031102-006

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

IMPORTANT

The tail lights are exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

1. Product picture

2. Open the rear cargo door of the original vehicle first, and then remove the outer decorative panel of the original tail light. As shown below:

3. After disconnecting the wiring harness plug of the original tail light, remove the decorative panel, unscrew the fixing screws of the original tail light, remove the original tail light, and then replace and install the new tail light on the decorative panel, and then use the original vehicle screws for fixation. As shown below:
