

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *Electronic Device Holder* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

KIT CONTENTS

PART DESCRIPTION	QTY
Electronic Device Holder	1
Self-tapping screws - M4*16	7
Hex socket screws - M6*25	1
Flat pad - M6*14	1
Sponge strip	1

INSTALLATION INSTRUCTIONS

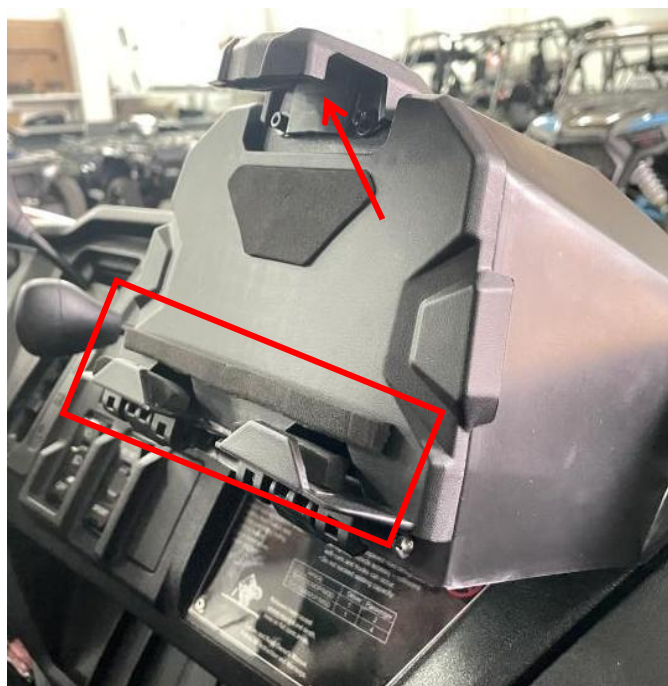

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Unscrew the screw at the gear shift of the vehicle, then place the electronic device holder on the instrument table, and use the hex socket screws in the kit to replace the original screw to fix it. As the picture shows:

3. According to the positioning hole at the edge

Electronic Device Holder For Honda Pioneer 1000

of the device holder, use the matching self-tapping screw to fix it in turn. As the picture shows:

4. Cut the sponge strip from the kit to a proper length and attach it to the device holder. As the picture shows:

5. The installation is complete.
