

Electronic Device Holder for Yamaha YXZ

ZP-YJ-031103-007

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

The Electronic Device Holder is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

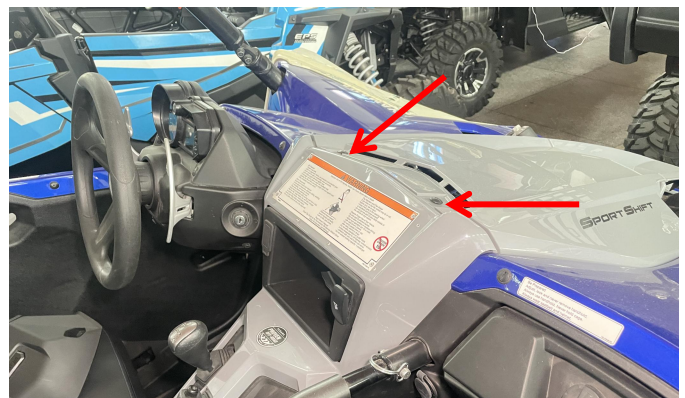

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

1. Product and accessory screw images:
Electronic Device Holder: 1 piece
Cross Self-tapping screw 4*16: 6 pieces

2. First, unscrew the two screws on the original vehicle dashboard trim panel, then place the navigation bracket on the dashboard, and then install the screws that were just loosened back in place. As shown in picture:

3. Prepare the matching Self-tapping screw of the product, and screw them in turn according to the positioning holes on the navigation bracket. As shown in picture:

Note: Open the cover of the navigation bracket, and there are still 2 screws that need to be tightened inside

4. Installation finished.

Note: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.
