

# Fender Flares and Mud Flaps Kit for Polaris RZR 900

ZP-YJ-030510-003

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

The *Fender Flares and Mud Flaps Kit* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

## INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

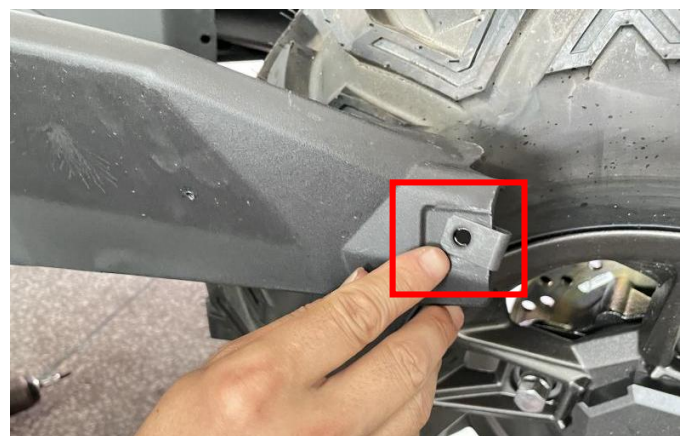

### Fender Flares

Picture of product

### Installation of Front Fender Flares

1. Remove the original fender flares first, and then move the steel clips on the original fender flares to the new fender flares according to the original position. As the picture shows:

2. Install the new fender flare on the original vehicle, and then use the screws of original vehicle(or screws in the kit) to fix it. As the picture shows:

## Mud Flaps

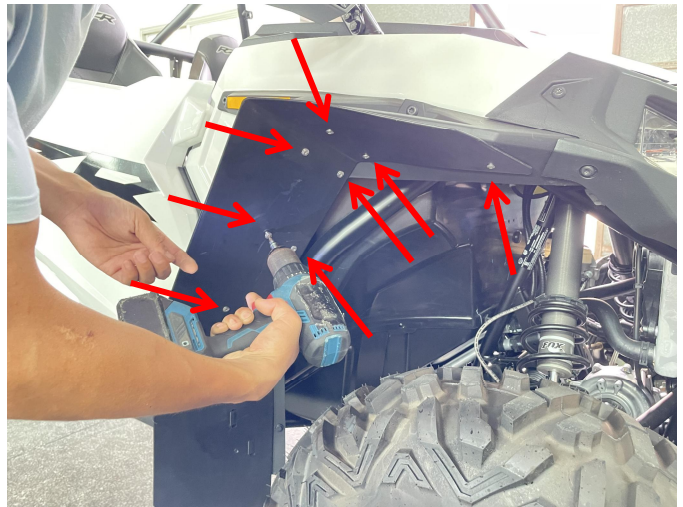

Picture of product

## Installation of Front Mud Flaps

1. First place the front mud flaps on the front fender flares and then use the self-tapping screws in the kit to fix the flaps according to the fixing holes in turn. As the picture shows:

Note: There are positioning holes on the flaps, it must be installed corresponding to the positioning columns on the fender flares.

## Installation of Rear Mud Flaps

2. Place the rear flap on the rear fender, and then prepare a 6MM drill bit to punch screw holes in turn according to the fixing holes on the flaps, and then use the screws and nuts in the kit to fix the flaps. (The flap on the other side can be installed in the same way as above). As the picture shows:
