

Turbo Hood Scoop with LED Spot Light for Polaris RZR XP 1000

ZP-YJ-030503-131

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This *Turbo Hood Scoop with LED Spot Light* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

1. Product picture

2. Remove the turbo hood and mesh grille of the original vehicle, install the new hood with the spotlight back to the original vehicle. Then find the wire harness of the original mesh grille lights, break the outer skin of the black and red wires of the wire harness, connect the hood light with the broken skin wire harness of the mesh grille lights, and do insulation protection. Finally, start the vehicle to check whether the spotlight is turned on normally. After checking, install back the mesh grille of original vehicle and fix the hood. As shown below:

Note: Black wire is connected to black wire and red wire is connected to red wire when connecting with the wiring harness of mesh grill lights.
