

# Daytime Running Light for Yamaha RMAX 1000

ZP-YJ-031102-010

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

These Daytime Running Lights are exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

## INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product and accessories picture:

1. First, remove the original vehicle hood, front fascia, and decorative panels on both sides. (If the original vehicle is equipped with a front bumper, it also needs to be removed).As shown in picture:

2. Remove the original daytime running light from the front fascia and replace it with a new one, using the original vehicle screws for fixation. (The daytime running lights on the other side can be replaced and installed in the same way.).As shown in picture:

3. Reinstall the front fascia of the replaced daytime running light back into the original vehicle, and connect the wiring harness plug of the daytime running light. Then, start the vehicle to check whether the daytime running light is on normally. Once confirmed to be correct, the previously removed hood and decorative panel can be reinstalled. As shown in picture:

4. Installation finished.

**Note:** Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.
