BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *Sport Hood Scoop with LED Spotlight* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

PRODUCT

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Remove the original front cover of the vehicle first, and then move the hood clips to the new cover. As the picture shows:

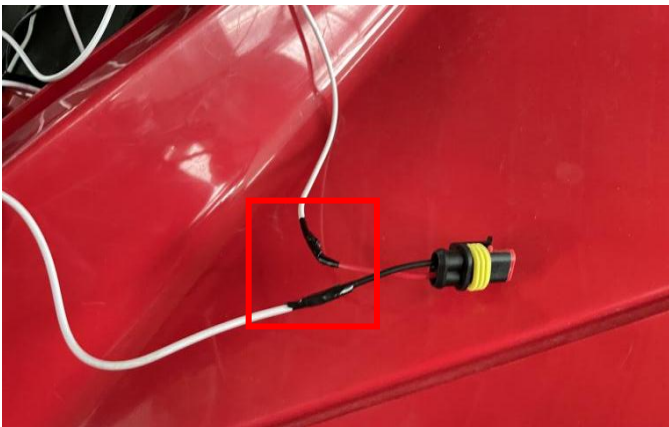

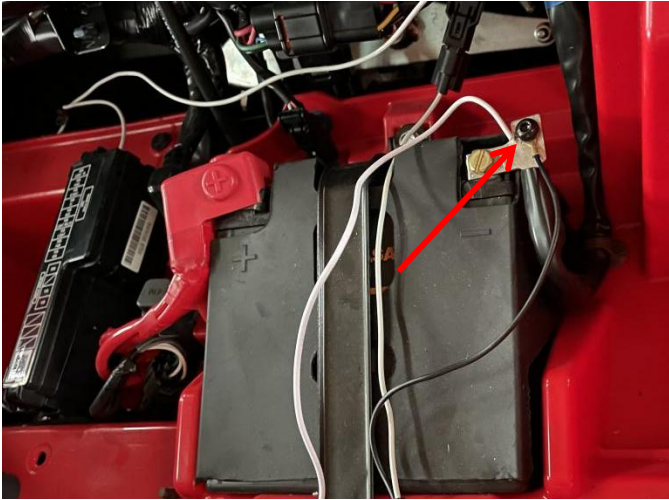

3. Take out the 2 extension cables in the accessories. One of which is connected to the vehicle's electrical box, and the other is connected to the negative pole of the vehicle's battery. After that, disconnect the rear half of the wiring harness plug-in on the spotlight of the cover. Then connect it with the other end of the two extension cables and do insulation protection well (one is black, and the other is red). As shown in the figure:

4. Connect the adapter plug-in to the spotlight wiring harness plug-in. Then put the cover back into the vehicle and fasten the hood clips. As the picture shows:

5. The installation is complete.
