

# Wide Angle Rear View Mirror for Kawasaki Teryx KRX 1000

ZP-YJ-031005-004

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

## IMPORTANT

This *Center Interior Mirror Kit* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

## INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK".  
Turn key to "OFF" position and remove from vehicle.

Product picture

1. Use screws to secure the matching mounting bracket to both ends of the rearview mirror (a flat pad should be placed before and after the screws, and the screws do not need to be tightened during fixation). As the picture shows:

ZP-YJ-031005-004

2. After loosening the screws on the mounting bracket of the rearview mirror, clip it onto the roof crossbeam (a non slip pad needs to be placed between the bracket and crossbeam), adjust the left and right distances, and then tighten the screws on the bracket. As the picture shows:

3. After adjusting the rearview mirror to the appropriate angle, tighten the screws at both ends. As the picture shows:
