

Front Bumper Lights for Polaris Ranger XD 1500

ZP-YJ-030502-046

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *Front Bumper Lights* are exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

PRODUCT AND ACCESSORIES

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Install U-nuts on the mounting tabs inside front bumper. Install the matched gasket frame in front bumper opening. As the pictures show:
NOTE: There is double-sided tape on the back of the gasket frame. The dust-proof film needs to be removed when installing. After installation, press down hard to make it more fit.

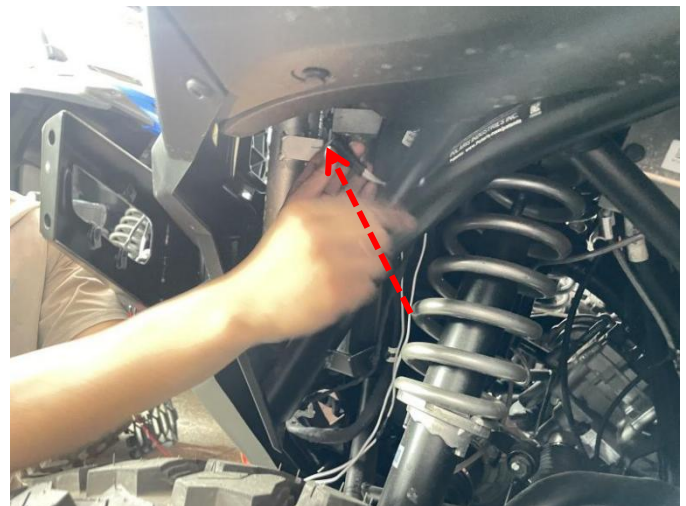

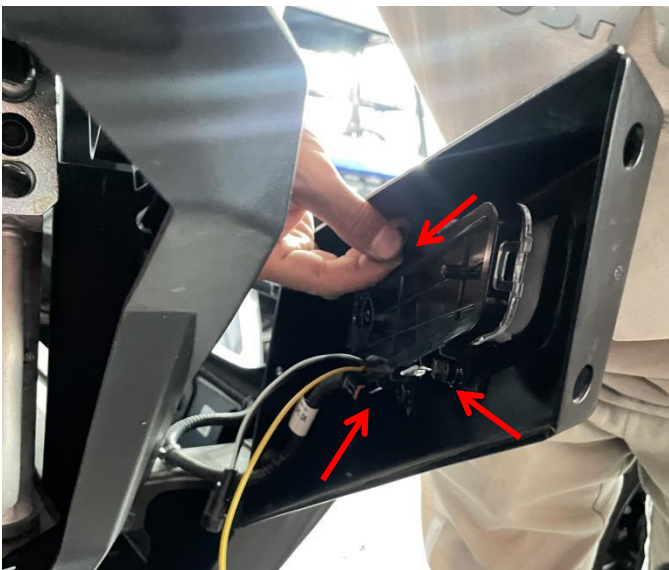

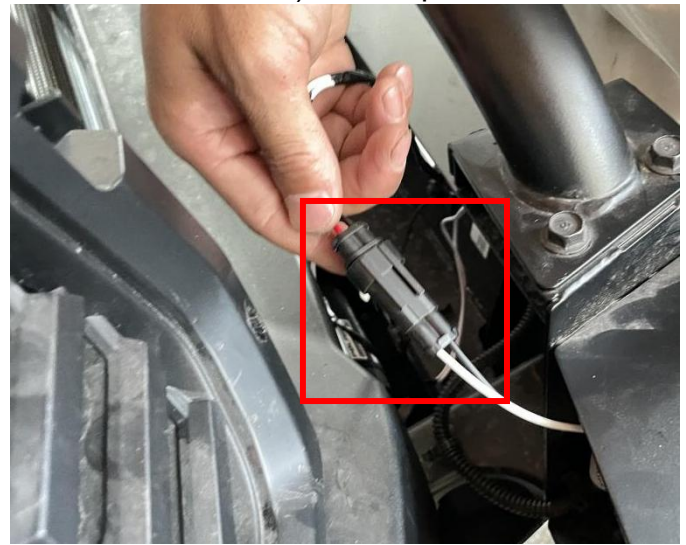

3. Distinguish the left and right sides of the lights, align the mounting tabs position, and then fix the light on the front bumper with screws (the other side is installed in the same way). As the pictures show:

Prepare the matching conversion wiring harness. Connect the pulled connecting wiring harness to the corresponding plug-in on the conversion harness. Disconnect the plug-in of the headlight, then re-connect the conversion harness to the plug-ins of the headlight and vehicle. After completion, turn on the switch to check whether the light is on normally. And the hood cover can be installed back after confirming that it is correct. (Same ways to install the other side). As the pictures show:

4. Connect the plug-in on the matching connecting wiring harness to the corresponding plug-in on the light. Then pass the excess connecting wiring through the gap at the driver side of the headlight to the vehicle outlet hole.

Note: If your lights have turn signal function, it is same ways to install but you need to purchase and install the turn signal flash controller yourself.

Note: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.

5. The installation is complete.
