

# LED Headlights Assembly for Can-Am Outlander 450 500 570

ZP-YJ-030601-007

SAUTVS®

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *LED Headlights Assembly* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

## PRODUCT AND ACCESSORIES

## INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. First remove the 3 screws that fixed the original headlights, then remove the rubber base on the back shell of the light, and disconnect the wiring harness plug-in. As the picture shows:

3. Reconnect the wiring harness plug-in on the new headlights to the vehicle, and then use the original screws to fix the headlight. (The headlight on the other side can be installed in the same way). As the picture shows:

NOTE: The brown wire has turn signal function, and you need to purchase a separate signal system to use it.

4. The installation is complete.

**Note:** Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.
