

Front Mesh Grill with Accent Light for Polaris XPEDITION ADV/XP

ZP-YJ-030503-148

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This *Front Mesh Grill with Accent Light Kit* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product picture and accessories

1. First, remove the original front mesh grill, and move the fixed locks of the original mesh grill to the new mesh grill, and connect the matching extension wire with the wiring harness plug-in of the day running lights. As the picture shows:

2. Pull the connected extension wire and spotlight harness through the gap of the vehicle to the headlight position on the driver side, and then connect with the matching conversion cord. As the picture shows:

connect the other end of the conversion with the wiring harness plug-in on the vehicle. After wiring, start the vehicle first, turn on the switch of the headlight high-beam, check whether the day running lights and spotlight can be normally lit, and then install the center mesh grill after checking, tighten the fixed locks. As the picture shows:

3. Disconnect the wiring harness plug-in of the original headlight, and connect the wiring harness of the original headlight with the plug-in on the conversion cord, and finally
