

# Front and Rear Fender Flares for Polaris Polaris Xpedition XP XP5/ ADV ADV5 2024+

ZP-YJ-030510-019

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

## IMPORTANT

This *Fender Flares* are exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

## INSTALLATION INSTRUCTIONS

Product picture

1. Assemble the parts of the front and rear fender flares into a whole by using M4\*12 self-tapping screws and matching flat washers. As the picture shows:

## Front Fender Flares

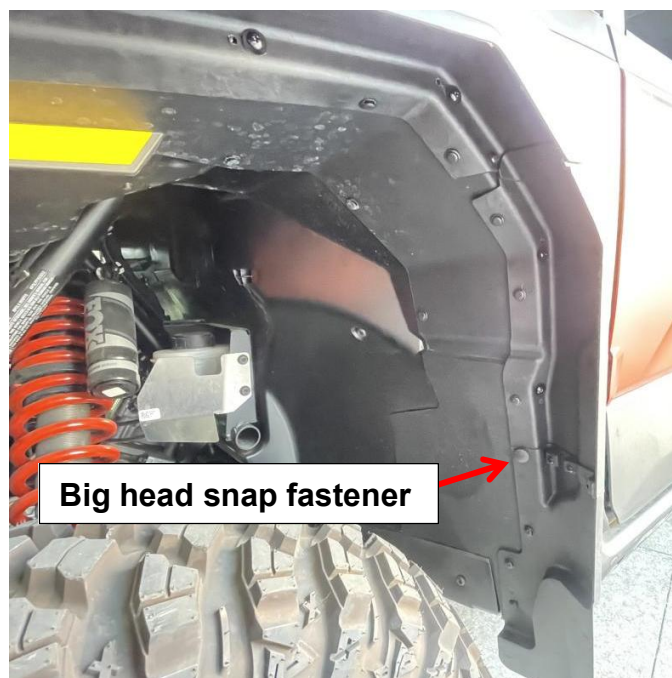

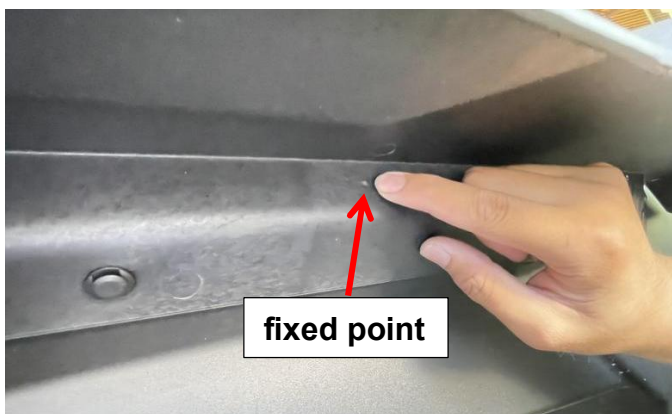

2. First, place the front fender flares at the installation position of the original vehicle, according to the fixed points marked on the fender flares, fix it by using M5\*25 self-tapping screws and matching flat washers. As the picture shows:

## Rear Fender Flares

4. Refer to the installation method of the front fender flares, fix the rear fender flares with 5\*25 self-tapping screws and matching flat washers, then drill holes (use 8mm drill bit) in the vehicle according to the positioning holes, and finally use the regular snap fasteners to fix it (Note: use two big head snap fasteners for the 2 positions in the third picture shown below). (Install the other side as above). As the picture shows:

3. Prepare an 8mm drill bit, drill holes in the original vehicle according to the fixed holes on the fender flares, and then fix it with regular snap fasteners (the position shown in the second picture needs to be fixed with a big-head snap fastener). As the picture shows:
