

Black Headlights for Polaris XPEDITION ADV/XP

ZP-YJ-030501-022

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This *Headlight Kit* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

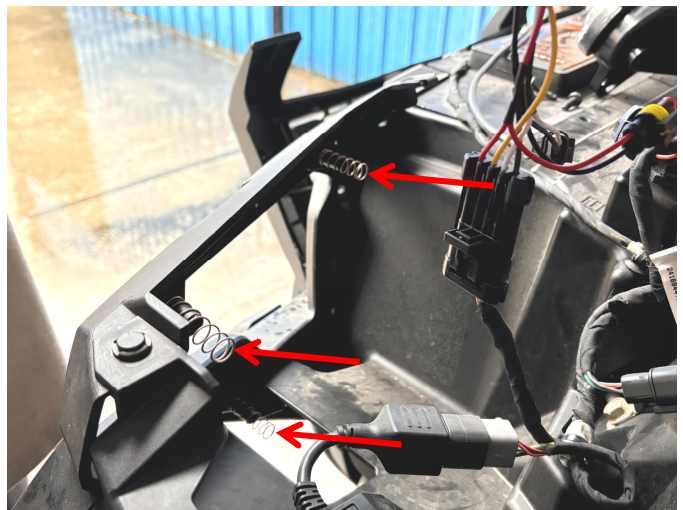

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product picture and accessories

1. Open the original hood, and remove the two side trim panels and the original headlights (the springs of the original vehicle were retained, do not take off). As the picture shows:

2. Distinguish the left and right sides of the new headlights in advance, connect the plug-ins of the headlights with the vehicle wiring harness, and then install the new headlights on the vehicle, and use the original screws of the vehicle to fix. As the picture shows:

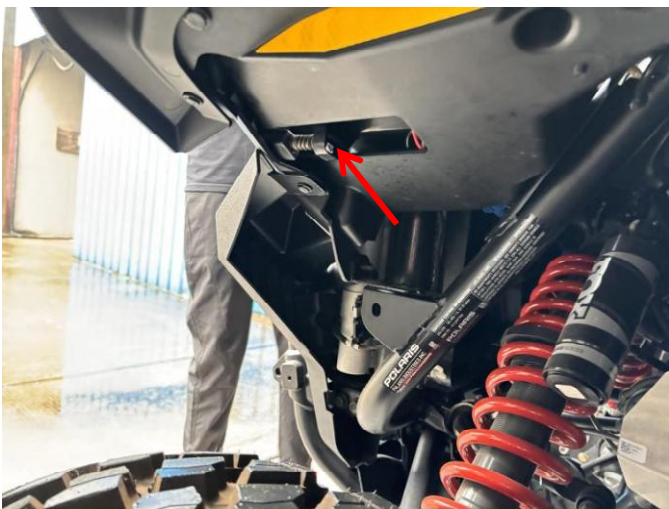

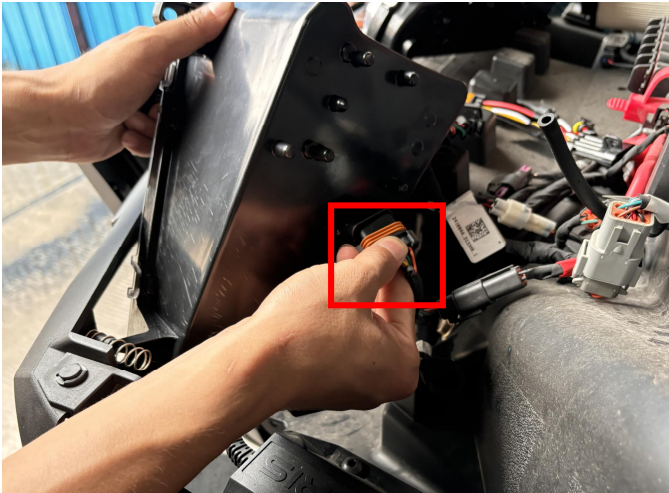

Note: The new headlights have a steering function, the owners can connect their own

steering harness as needed.

3. The other side of the headlight can be replaced and installed in the above way, after the headlights of both sides are installed, start the vehicle, turn on the headlight switch, check whether the new headlights work normally.

After confirmation, the decorative plates can be installed back, cover the hood. As the picture shows:

4. The installation is complete.
