

Rear Roof Speaker Pods for Polaris General 1000 / XP 1000

ZP-YJ-030503-160

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

This *Speaker Pods Kit* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product picture and accessories: (Speakers are not included)

1. First, assemble the No.1 and No.2 mounting brackets (fixed in the direction of the brackets shown in the picture) with M6*16 hex socket screws (Don't tighten the screws too tightly). As the picture shows:

2. Fix the No. 3 and No. 4 mounting brackets (fixed in the direction of the brackets shown in the picture) on the speaker pod by using M6*12 hex socket screws (Don't tighten the screws too tightly). As the picture shows:

ZP-YJ-030503-160

4. Install the assembled No. 1 and No. 2 brackets on the side beam bar of the roof, then align the screw holes on the surface of the speaker pod with the screw holes on the mounting bracket, and tighten the screws on the mounting bracket after determining the position. Finally, use M6*40 screws and flat washers to fix the speaker pods on the iron brackets (the other side of the speaker pod is installed in the same way as above). As the picture shows:

5. The installation is complete.

Note: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.
