

Roof Speaker Panels for Can-Am Maverick R

ZP-YJ-030603-186

SAUTV5

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

IMPORTANT

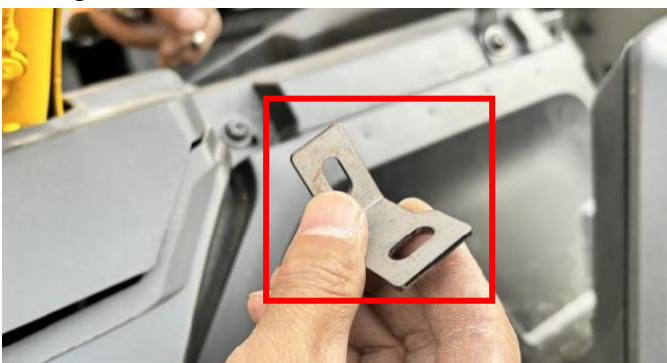

This ROOF SPEAKER PANELS KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Product image. (NOTE: Speakers are not included in this product.)

3. First, install the iron bracket that comes with the speaker bracket to the vehicle, and use the hexagonal screws to fix it.

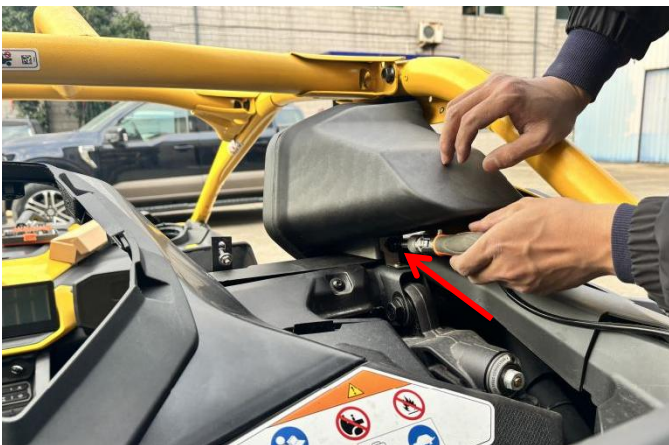

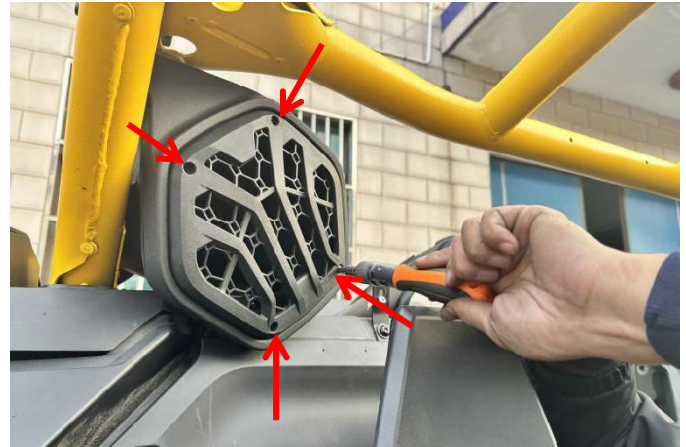

4. Remove the vehicle's rear A-pillar exterior decorative plate, loosen the screws on the A-pillar base plate (the base plate does not need to be removed, in order to follow up the screws), after which the speaker bracket is stuck on a matching steel card and the audio bracket is mounted to the vehicle, using M6*20 screws for fixation.

6. Installation completed.

5. The self-provided audio speakers will be installed and fixed in the bracket, connect the wiring harness, you can use the decorative frame M4 * 16 self-tapping screws fixed in the speaker bracket, and then finally back to the previously disassembled A-pillar base as well as the decorative plate can be installed. The other side of the speaker bracket is installed in the same way as above.

Note: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.
